	8000 Open \$150 for 1 st \$100 for 2 nd \$75 for 3 rd

Rules

For any rules related questions please contact Dillan McGee (715)-641-0612

All non-speed limit classes need a minimum of 5 pullers for pull payout

- (1) Straight off the farm
 - (a) All general rules apply
 - (b) Factory RPM's per the Nebraska tractor test manual for the make and model tractor being pulled may be checked at random
 - (c) Stock drawbar, no welded on d rings, clevis must pin or bolt to the drawbar
 - (d) Minimum of 20" from the centerline of rear axle to the point of hook on the clevis
 - (e) Must be equipped with working PTO and Hydraulics (tractors manufactured prior to 1958 do not need hydraulics)
 - (f) 16.9x38 tire size maximum in 4500 and 5500
 - (g) 18.4x38 tire size maximum in 7000 and heavier non turbo
 - (h) 20.8x42 maximum in all turbo classes
 - (i) No press steel rear wheels unless available as an option on the make and model of tractor being pulled (Example: MH 44 or JD A/B)
 - (j) Factory air cleaner, piping, and turbo piping
 - (k) Factory carburetor, injection pump, and turbo for make and model of tractor being pulled
 - (l) No aftermarket pusher pumps of any kind
 - (m) Maximum drawbar height of 20 inches
- (2) After Chores
 - (a) All general rules apply
 - (b) Factory block, transmission, and rear end for that make and model tractor
 - (c) Cast cylinder head or replacement head must appear factory
 - (d) No Minneapolis Moline HD800 engine components
 - (e) Any cast iron manifolds are allowed
 - (f) Rear fenders required
 - (g) Side shields allowed
 - (h) No rpm limit
 - (i) Hitches can be 20" in height and no closer than 18" from the hook point to the centerline of the rear axle
 - (j) Updraft carburetors only, 2 cylinder John Deeres can have duplex carburetor
 - (k) Any cut on tires allowed
 - (l) No water injection
 - (m) 2.4" turbo inducer size limit
 - (n) Must retain factory type injection pump
- (3) Altered Farm
 - (a) All general rules apply
 - (b) 2.6 Turbo
 - (c) No water injection
 - (d) Stock body injection pump
 - (e) Wheelie bars
 - (f) Fuel dump mandatory
 - (g) 20" maximum hitch height
 - (h) Roll bar, rops, or Cage recommended
- (4) Pro Farm

- (a) All general rules apply
 - (b) 466 cubic inch maximum
 - (c) Any injection pump
 - (d) 3x3 turbo
 - (e) Water injection allowed
 - (f) 20.8x38 tires, any cut
 - (g) 20" maximum hitch height
 - (h) Roll cage required
 - (i) Kill switch required
 - (j) Wheelie bars required
 - (k) Must have cross bolts in exhaust pipe
 - (l) SFI approved helmet and fire suit required
- (5) Open
- (a) All general rules apply
 - (b) Any fuel type allowed
 - (c) 20" maximum hitch height
 - (d) Roll cage required
 - (e) Kill switch required
 - (f) Wheelie bars required
 - (g) SFI approved helmet and fire suit required
- (6) Street Trucks
- (a) All general rules apply
 - (b) 26 inch drawbar height
 - (c) Must have valid driver's license
 - (d) Truck must be registered and have current tabs
 - (e) Engine compartment must be stock appearing including fuel system and turbo
 - (f) Only one turbo allowed, unless it was original equipment (6.4 Powerstroke)
 - (g) Traction bars allowed
 - (h) No front weight brackets
 - (i) No water injection, LP, or nitrous
- (7) Open Trucks
- (a) All general rules apply
 - (b) All safety equipment required
